Gender Differences in Depression: A Marital Therapy Approach. (1996). Psychiatry. Color. 44 mins. (Ackerman Institute for the Family Ser.). Video Released Aug. 1996. Author Peggy Papp. Produced by Steve Lerner. "Understanding how to ameliorate the negative effects of gender roles and stereotypes is essential if optimal treatment outcomes [for depression] are to be obtained." -The American Psychological Association's Report on Women and Depression (1990) Under the guidance of Peggy Papp, renowned author and clinician, the Depression Project at the Ackerman Institute for the Family has pioneered a marital therapy approach that addresses the cultural gender "mandates" that predispose men and women to depression and undermine intimate relationships. In this emotionally compelling video, Papp demonstrates her team-based approach to treating depression within a marital therapy context. An immensely useful and skillfully presented resource, the program also draws upon the clinical expertise of Depression Project members and producer Steve Lerner, practicing family therapist and founding director of Menninger Video Productions. Viewers observe a series of clinical sessions in which the Depression Project's male-female treatment team works with a severely depressed couple to help reduce marital discord, alleviate each partner's feelings of despair, and bolster the couple's sense of competency and satisfaction within the marriage. The video brings to life strategies for helping couples: * Recognize symptoms of emotional disconnectedness * Restore a sense of connectedness as individuals and as a couple * Redistribute and equalize responsibility in relationships * Develop new skills and competencies in their work, family life, social interactions, and marital relations. *Modify stereotypic gender patterns that undermine the health of a relationship and exacerbate depression. THE VIDEO ALSO ELUCIDATES: * How men's and women's self-esteem is shaped by social and cultural forces. * The distinct elements that tend to trigger depression in men and in women. * The different ways men and women tend to cope with depression. * The different ways husbands and wives of depressed partners tend to handle their partner's depression. A VALUABLE TOOL FOR: All mental health professionals, trainees, and students, particularly those in family and couple therapy and counseling. It is ideal as well for clinicians who work with depression. Guilford Pubns., Inc. VHS. (ISBN: 978-1-57230-287-7(9), Order #: 0287) $95.00.

George Marshall & the American Century, 1 disc. 88 mins mins. (YA). Video Released May 2006. 'The cost of war is constantly spread before me, written neatly in many ledgers whose columns are gravestones. For that reason, I am constantly moved to find the means to prevent the calamity of war.' - George Marshall He built the mightiest army in history and selected its leaders. Eisenhower, MacArthur and Patton all obeyed his commands. And, when victory was won, he bound up the world's wounds with a plan for European recovery that bore his name. The only soldier ever to receive the Nobel Peace Prize, he served during his long career as Chief of Staff of the U.S. Army, Secretary of State, Secretary of Defense and President of the Red Cross.Soldier and statesman, a powerful yet modest patriot, George Marshall is today an almost forgotten hero - a private and introspective man whose influential role in matters of war and peace helped determine the course of the twentieth century. George Marshall and the American Century features rare historical footage and recordings of Marshall and President Roosevelt and Truman, as well as exclusive interviews with General Matthew B. Ridgway, journalist Eric Sevareid, former Secretary of Defense Clark Clifford and many others. It brings to life the tenacious diplomat and strategist who won battles in both the European theater and on Capital Hill, and recalls the military leader who recognized the somber legacy of war. Glory to Go Alone: The Life of J. S. Bach. Color. 29 mins mins. Video Released May 2003. ?The most stupendous miracle in all of music.? That is how one great German composer described Bach?s work. Johann Sebastian Bach (1685-1750) lived his whole life in Germany and in music. This video is his story, unfolded from the very places where his key life events took place. It is Bach for beginners, in the sense that young people who may never yet heard of him will find this journey through his life a fascinating adventure. At the same time, those who have long loved his music will be enthralled with the captivating details of his life and development.Born into a musical family, Bach?s life was almost predetermined to be in the field of music. But from a child he internalized the art and passionately pursued the development of his skills. It would result in a legacy that has enriched the world and continues to inspire, engage, and touch souls across diverse cultural boundaries now close to three hundred years later.In this video journey we are accompanied by Bach authorities including classical guitarist Christopher Parkening. They guide us through the development, personal crises, challenges, remarkable work output, and the compelling inner motivation of Bach and show why it was so important to the composer that his gifts be used for the glory of God alone. He got his wish. Bach died in obscurity, his grave not even marked. But God was glorified as Bach?s music transcends the changing styles and passing centuries and infuses the world with a priceless treasure that will continue as long as music is embraced to transport us from the mundane. God's Outlaw. Color. 93 mins. mins. CC Video Released Aug. 2003 DVD FEATURES:Languages: English, Spanish, Portuguese and KoreanSubtitles:EnglishViewing Format: FullscreenSound:Bonus Material:-Chapter titles for easy scene access-Biographical information on director and leading actors-In the DVD-ROM folder: Christian History magazine article and study guide/worksheets in.pdf format-Abridged version with commentary by Ken CurtisA true story, God's Outlaw is about international politics, church intrigue, cold-blooded betrayal, and false justice ending in a criminal's death. But it's also about victorious faith and spiritual triumph over some of the greatest political and religious forces known in the 16th century.A simple God-seeking man, William Tyndale somehow became one of the most wanted men in England and all of Europe. Pursued by King Henry VIII, Lord Chancellor Sir Thomas More, and the Pope's personal legate Cardinal Wolsey, he darted across Europe to avoid capture-always pushing to complete the task that obsessed him.The task was translating the Bible into English and publishing it for his fellow countrymen-Englishmen who lived in a country where the Bible and even prayers in English were outlawed by a harsh and rigid religious establishment. Today he is renowned as "the father of the English Bible," and is recognized as one of the major leaders of the English Reformation. But the tale of how he lived and died as "God's outlaw" is a compelling "rest-of-the-story," and is especially a moving encouragement for modern people of faith. Vision Video. DVD. Going Home: Journey of Kim Jones. Color. 37 mins. mins. Video Released Jul. 2003. -Pdf study guide available in the DVD-ROM folder or download from www.visionvideo.comOn September 15, 1999, during a See You at the Pole? rally at Wedgwood Baptist Church in Fort Worth, Texas, a tragic shooting left seven people dead and seven wounded. Kim Jones, a 23-year-old seminary student who passionately loved God, was one of those killed that night. She was ready for her journey home.Pastor Al Meredith of Wedgwood tells the story of that night in September and how only God could turn such tragedy into triumph. This video also introduces you to Kim Jones and contains her inspiring message of God?s love and desire for you to have a personal relationship with Him?just like she had. Included as an extra bonus is home video footage of Kim sharing her faith with a group just two months before her death.From her father, mother and brother-"Kim's dream was to travel the world, telling others about Jesus and His great love for everyone. We pray that through this video her dream will be fulfilled and, more importantly, that God will change your life for eternity and challenge you through Kim's message and her heart for Him. We serve an awesome God, and only He can bring hope from tragedy. Let this event at Wedgwood be a wake-up call to make your life count for eternity, as Kim's did."Through all that has transpired-has there been pain? Yes! Have we felt at our lowest point? Yes! Did our hearts feel like they had been ripped from us? Yes! But God's grace has been sufficient, and in Him lies our strength and hope. We don't expect to fully understand why He allowed Kim's death at such an early age, but as she so often reminded us, 'God is the Controller of all things, the Ruler of all things, and the King of all kings!"-Stan, Stephannie, and Tim Jones: Kim's family DVD Features:Languages: EnglishSubtitles: NoneViewing Format: FullscreenSound:Bonus Material:PDF GuideKim's Testimony. What is seen as an act of love by adoptive parents is viewed with deep suspicion inside Guatemala. By examining the ramifications of money, private lawyers, media coverage and women?s rights on the adoption process, ?Goodbye Baby? illuminates the complexity of international adoption from the vantage point of those in a country sending the children. ?Goodbye Baby? includes voices of birth mothers, adoption agency workers, adoptive parents, lawyers, government officials and critics of adoption. Interviews are complemented by intimate footage of the adoption process, including birth mothers relinquishing babies, the DNA testing and a visit with a foster mother; children in orphanages; a protest against adoption; and scenes with adoptive parents in Guatemala picking up their children. Informed by the filmmaker?s own experiences ? she?s been deeply connected to Guatemala for 25 years and is the mother of two children adopted from Guatemala ? ?Goodbye Baby? provides a rare glimpse into the dramatic and difficult world of intercountry adoption. Google Adwords Marketing Mastery Pt. 1: **Adwords Basics,** Color. 63 mins. Age: 0. G. Video Released Feb. 2005. Author Steve Blom. Adwords Basic Training There is nothing like having a personal tutor take you to his computer and show you EXACTLY how to do it, step by step, so that you gain confidence and mastery of Google Adwords. We found that written words just aren"t enough, it is important to show even people who have little computer experience exactly what to do. Your Adwords basic training starts with the key secrets you need to know about how Google works, and how it is MUCH different than any other advertising program out there. These videos are for anyone, although they are designed to be simple so that even non-geeks will be able to get their hands dirty, navigate around in the Google interface and gain confidence in Adwords fast.Here is a rundown of these exciting Videos:Beginning adwords videos (all included on this CD): Video 1- Introduction to Google Adwords: Google Adwords can be intimidating, especially for people without a lot of experience with computers and online advertising. This first introductory video is made to take the stress out of learning and show how basically simple it is. This video is easy enough that anyone can watch it and understand how adwords works, even people with little computer experience, so that you can gain the confidence you need to progress through the rest of the course. Video 2- How to access the Pro center: This video is your gateway to learning everything the pros do about adwords. We have set you up a "virtual training center" that gives you access to THE VERY SAME VIDEOS that Google uses to train adwords experts like our very staff! This will give you over automatic access to over 30 extra videos, tests, and practical assignments direct from Google. In their basic training, search engine professionals view these videos and then pass a two hour test from Google as part of getting certified. This is the official Google adwords party line, straight from them. Anyone having trouble with any of their basics or that needs more background about how to do something can view these additional videos to get more confidence and certainty in their Adwords results. Why did we give you access to these and why should you watch our videos then? Because our videos are the "unofficial" underground training for advertisers that want to wring every bit they can from their advertising dollar. In the Google videos there is a little bias towards how to do Adwords the way Google wants you to (which includes paying more per click) and the way an Advertiser would want to do it (getting the cheapest clicks they can). So our videos are really the indispensible ones, but it helps to have as much information as possible at your disposal. So that is why we set this up for you. Video 3- Getting around in Adwords: -How to navigate like a pro fast Adwords seems complicated the first time you log in, with lots of options. It would be nice to have a friend show you in a simple way how it is all set up. Well we are that friend. Look over our shoulder while we simplify how to get around in Adwords to be able to do what you want. We"ll have you whipping through Adwords like a veteran in no time. Video 4- Starting a new campaign: - The basics What is the single thing that you can do when you start a new campaign that will lose you THOUSANDS of dollars? How do you avoid getting crushed before you even start? Most advertisers end up with their accounts with poorly performing results just with this common mistake alone. It all has to do with how Google sets up a default campaign, which are not all in your best interest. This video includes the steps you should take to get around this problem and avoid wasting money, and keep yourself on track for maximum results. Learning this by trial and error cost us over a thousand dollars in experiments, and our learning curve is pretty fast. This video tells you the all important insider data you need to avoid Video 5- How to set up your campaigns: Google has many options and ways to organize all the keywords. Data Resource Consulting. Laser. (ISBN: 978-0-9768424-0-8(8), Order #: drci-amc-1) $71.93.

Google Adwords Marketing Mastery Pt. 3: **Website Analysis with Hitslink**, Color. 58 mins. G. Video Released Feb. 2005. Author Steve Blom. Hitslink videos: Your website will show you problems with your adwords account. How? read on! Guess what?

Adwords itself is only half the game! The other half is your website. How do you tell what is happening on your website? What are those people doing on your site that you paid Google for? To be successful you need to know how to analyze your website and really see what is happening. Hitslink is a popular tracking software that we use and we show you step by step how to get rid of junky traffic, see how well your site is actually performing, and identify not just problem areas with your website, but problems with your adwords account as well. Are you getting the wrong kind of people to your website? Are you a victim of click fraud? Is your adwords account actually set up correctly? What is the ROI? Is Adwords working for you? Hitslink will tell you, if you know how to read it. We show you how. Video 11, Hitslink1: Pages and unique visitors: -How to really tell how well your site is performing! This video takes you through your first step into hitslink and shows you a whole new look at your website, including the key metrics to look at first. Are people leaving your site right away, or are they staying and reading what you have to offer? How can you tell what you should change on your website? What should you see in every well performing website? What should you watch for to know when you need to change your adwords account right away? This video shows you all of those things, and makes it easy to learn as well.Video 12-Hitslink2: Search Terms: -How to make sure you are getting quality visitors Your adwords account shows you that some people saw your ad, and a certain number of them clicked on it. But what did they type in exactly? What were they searching for? Does your site really offer that, or are you just paying for freebie seekers? This video shows you how to drill down and find out if you are showing your ads where you shouldn"t be, and refine your targeting exactly so that you can have visitors that really are searching for what you have to offer. You will also find out a VERY costly mistake you could be making in your Google advertising, and how to fix it Video 13-Hitslink3: Top Referrers: -Where your visitors are coming from? Which sites and search engines are your visitors coming from? Are they giving you truly interested people, or is it simply Click Fraud? This video shows you how to analyze WHERE your traffic is coming from, and what sites are sending you these visitors. This is a must if you are going to find out how to boost your sales, of see if a new campaign is working. Video 14-Hitslink4: Navigation Paths: -The "magic looking glass" to see what your visitors are doing at your site Now that you have some of your basics together, its time to take a real in depth look at your site. This is probably the most important tool that hitslink has, and we show you exactly how to use it to zero in to how well any page on your site is performing You can take any page and see exactly how long people are staying at that page, which page they are going to after that, and drill down further to see exactly what percentage of the people visiting your site are "converting" for you into sales and sales leads, and what pages people are leaving almost immediately from. How good is your site? This video shows you how to use this hitslink tool to get to the real truth. Video 15-Hitslink5: Latest visitors Get a real time look at the visitors on your site. This video shows you how to look at the most recent visitors to your site to get a near realtime view of how recent changes you may have made to your adwords account are affecting your results. Learn how to look in depth at one of your recent visitors, see what search terms they typed in, what page they went to, and even their browser and operating system on their computer! Video 16-Hitslink6: Additional Hitslink Data: - How to set up tracking on your site, and additional tips and tricks. Data Resource Consulting. Laser. (ISBN: 978-0-9768424-2-2(4)) $71.33.

Google Adwords Marketing Mastery Vol 2: Part 2-Advanced Adwords Training. 1. 62 mins. Video Released Feb. 2005. Author Steve Blom. Advanced Adwords Tutorials: Continuing on Where The previous CD Adwords Basics left off, this exciting video series continues to deliver the goods with respect to advertising with the Google Adwords Program.These exciting videos comprise the Advanced Portion of this Series:Video 7-Adding negative keywords: -When NOT to show your ads and why "Negative Keywords" are words you can specify that your ads should NOT be shown on, and are one of the most powerful tools that differentiates Google from other advertising programs. Included on this CD is a text file of over 300 keywords that after hundreds of thousands of actual dollars spent, produce poor ROI consistently over many different products and services. This list is a great starting point to doubling your ROI if you already have an existing Adwords account, and if you are starting new will help you start off right. What are the strategies for when to use them and when not to? This video gives you the answer. Video 8-Finding keywords and bids with Overture: -Using the competition to your advantage Overture is another pay per click search engine in competition with Google, now called Yahoo search solutions, that has opened up the hood of their search engine in a way that Google still has not. How to do the beginning keyword identification process and to research the market has never been simpler when you use this tool correctly. This video takes you step by step through the process of finding out in this search engine what your competitors are paying for any given keyword, and how many times a keyword gets searched each month. You can see how many clicks are available, and also get lots of interesting keyword ideas from this tool that you wouldn"t have thought of before. What are people really typing into the search engines? This video will give you a good insight. Video 9-Getting new and different keywords: -How to think "out of the box" This is probably the most important of the advanced adwords series. Every advertisor does at least some keyword research, and almost every advertisor uses Yahoo search solutions as described in the preceeding video. There are hundreds of thousands of advertisors, competing against you. So, if hundreds of thousands of people are using the same tools like overture and wordtracker, how are you going to ever find any traffic bargains? Won"t you be just like everyone else? After all, Adwords consists of just keywords and ads really. So how do you beat all the other advertisers in your industry in these two areas? In your printed materials you are going to learn how to write ads that destroy your competition, but how do you avoid bidding wars on obvious terms and dig deeper to get cheaper clicks with even more qualified prospects? What sources should you use? How do you do it? We reveal in this video how to go way beyond the overture and wordtracker tools and what the average webmaster does to truly find the traffic bargains that are still out there. There are a couple little known and little used tools that we have discovered that will help you immensely. Be ahead of the curve of your competition. The genius of this particular video is in making it easy for people who aren"t super webmasters to do this. Preliminary reports are showing that this definitely does the job. Video 10-Daily account management: Maximizing your return This video takes you step by step through the life of an adwords professional and shows you how to do the analyzing process on your account. Realtime business analysis is an extremely valuable skill, and if you hire someone it is worth its weight in gold but still very costly. We can"t tell you everything about how to analyze an online business, that would take volumes, but we can tell you the key things to look at, and get you well on your way. When you log in, what should you do first? How do you accomplish in 15 minutes what takes most professionals an hour or more? How do you know that what you did was correct? Data Resource Consulting. Laser. (ISBN: 978-0-9768424-1-5(6)) $71.33.

This was accented by politized musicians such as Bob Dylan and films including "Easy Rider," "Bonnie and Clyde" and the Beatles' "Sgt. Peppers Lonely Hearts Club Band."#7: "The Narcissistic Culture" explains how much of America's culture, in a desperate search for absolutes, began turning to weight loss, sex advice and religious television.
